I. Match the sentences halves.

- If you write too much code without running it,
- you will avoid mistakes.

- If you follow indenting rules,
- you will find it more difficult to find errors.

- If you negotiate,
- if you want to copypaste something.

- Use ctrl + c, ctrl+v
- if your manager asks you to work overtime?

- What will you do
- you will get a better offer.

II. Right (✓) or Wrong (✗)? Correct the wrong sentences.

1. If you will not tell your boss, he will be angry.
2. If you have questions, will ask more experienced programmers.
3. If you comment out this line of code, it won't crash anymore.
4. The code doesn't compile if you will not close the bracket.
5. What you will do if the company offers you a job abroad?

III. Imagine you explain simple programming rules to a beginner (use if).

1. If you _____, ... will (won't) _____.
2. If you _____, ... will (won't) _____.
3. What will happen, if _____?
